About Kredinor

We help you make it

Kredinor is Norway's leading debt collection agency. Our market share in Norway continues to be high, with a volume of 30 percent of the total outstanding debt collection mass and 18 percent of new cases for debt collection. (Finanstilsynet, 2024).

Kredinor will continue to be a market leader in the industry, and we will have the most satisfied clients. We are at the forefront of developing new digital solutions that make it easier for customers to pay and faster for clients to receive payment for goods or services. Kredinor is a full-service debt collection company that offers services in two main categories, Credit Management Services (CMS) and Portfolio Investments (PI). Today we have offices in Norway, Sweden, Denmark, and Finland. Our ambition is to become a leading debt collection company in the Nordics.

Kredinor's owners are SpareBank 1 Gruppen (68.64%) and Kredinorstiftelsen (31.36%).

Message from the CEO

We are all set and ready to take on 2025.

The positive development seen in the company in the second and third quarter, continued through the fourth quarter of 2024. Although there are challenges ahead, we have entered 2025 much stronger than at the turn of the last year.

As we leave the numbers of 2024 behind, this is both a time to reflect on the achievements of the past year and to set our sights on a pivotal 2025.

I am immensely proud of what we have accomplished together at Kredinor over the past year. While 2024 began with challenges, we steadily improved our results through the second and third quarters, with this positive trend continuing into the fourth quarter. Entering 2025, we are equipped with an updated strategy aligned with market needs, a clear vision, and a highly skilled team. Together, we have laid a strong foundation for Kredinor's future, but our journey is far from complete.

Our improved results, however, have been partially offset by necessary write-downs and costs associated with closing underperforming activities. In the fourth quarter, a writedown in Sweden has impacted our results. This adjustment reflects changes in Swedish regulations regarding tax deductions on interest for consumer loans. Turning to the broader market landscape, particularly in Norway, we have spent time engaging with politicians and other decision-makers in our largest market. With ongoing legislative developments affecting our industry, Kredinor is collaborating closely with Finance Norway and other leading players within debt collection. Our collective goal is to ensure fair and equitable operating conditions. By fostering informed discussions with decision-makers, we aim to build a resilient company capable of delivering high-quality services to society, clients, and customers. This includes meeting ESG expectations, adhering to regulatory requirements, and advancing our digitalization efforts.

As an industry, we must acknowledge that we have not done enough to highlight our positive contributions. Internally, we recognize the essential role we play for clients, debtors, and society's financial stability. However, externally, our role as a vital component of the economic cycle often goes unrecognized. Without our work, many businesses would struggle to operate, and countless individuals would lack the support they need to achieve a debt-free life. Throughout 2024, the term "core business" has been central to our strategy, and this focus will continue into 2025. Strengthening Kredinor's core remains at the heart of our ambition to establish ourselves as an industry leader in our markets. We are excited about the opportunities that lie ahead and committed to achieving our high ambitions in the coming year.

On a final note, let us hope for improved macroeconomic conditions that benefit us all - private individuals and businesses alike.

Best regards,

Rolf Eek-Johansen, CEO

Key figures

Highlights

- The positive trend observed in Q2 and Q3 2024 continued through the fourth quarter. Positive operations with underlying profit before tax.
- Revaluations of MNOK -61 in Q4, mainly due to effects coming from tax regulations in Sweden.
- The trend of increasing CMS revenue continues with total revenues 16% higher than in Q4 2023.
- Collection performance at 101% in Q4, completing five consecutive quarters with positive performance.
- New organizational design implemented in the fourth quarter and new management team appointed and active from January 2025.
- Kredinor is well positioned to harvest from the foundation laid out in the core business through 2024 and is expecting continued positive trend going into 2025.

Sustainability in Q4

Improvement of systems for climate accounting and reductions

During the final quarter of 2024, we advanced our work on defining metrics and targets for ESG as part of our preparation for the upcoming CSRD report.

The CSRD introduces a comprehensive framework for detailing Kredinor's sustainability efforts, which will be published as an integrated section of our Annual Report.

The Board of Directors holds overall responsibility for our sustainability reporting. To ensure alignment with the new regulatory requirements, the board has participated in detailed sessions led by our Head of Sustainability and external experts. Additionally, the Audit Committee has conducted extra sessions to review and assess the quality of the metrics and targets associated with the report.

At the end of 2024, Kredinor's sustainability team, in collaboration with the Procurement department, began a comprehensive review of our process for evaluating ESG risks among suppliers. Our approach relies on a riskbased system to regularly assess our largest suppliers, in compliance with the Transparency Act. Moreover, as part of our environmental initiatives and climate reporting, we entered into an agreement with a climate reporting system provider to enhance the accuracy and quality of our climate accounting. We also committed to offsetting our carbon emissions by purchasing carbon credits, which are tradable permits used to support efforts to reduce or offset emissions.

By purchasing these carbon credits, we contribute to reforestation projects in degraded grasslands located in Uchindile & Mapanda, Tanzania. This initiative forms part of our broader commitment to reducing our emissions. As a starting point, we are compensating for all emissions linked to digital and printed invoices on behalf of Kredinor and our clients.

Operations and outlook

Our operations during the quarter

Revenues

Kredinor's total revenue for Q4 2024, including portfolio revaluations, was MNOK 313 compared to MNOK 367 in Q4 2023. Excluding revaluations, revenues increased 2.7% compared to same quarter last year. Revenues from CMS totaled MNOK 195, an increase of 15.6% from the same quarter last year.

We have written down the value of own portfolios with MNOK 61 during the quarter, compared to a write up of MNOK 4 in the same quarter last year. The main reason for the write-down in this quarter is changes in Swedish tax regulation.

Expenses

Operating expenses for the quarter were MNOK 262 compared to MNOK 341 in the same quarter last year. This represents a reduction of 23%. Personnel costs represent a decrease of MNOK 20 while other opex represents a decrease of MNOK 59.

Net financial expenses were MNOK 85 compared to MNOK 119 in Q4 2023. The decrease is due to lower interest level and reduced interest-bearing debt.

Collection performance

Cash collected on owned portfolios was MNOK 354 during the quarter, compared to MNOK 351 in the same quarter last year. The rolling 12m collection performance was 103.7%, and for the quarter in isolation it was 100.6%. We see a stabile recurring cash flow.

Portfolio investments

Kredinor made portfolio investments totaling MNOK 45 during the quarter, compared to MNOK 221 in Q4 2023.

With amortizations of MNOK 175 and revaluations, there is a decrease in the book value of the portfolios from the last quarter, from MNOK 5 850 in Q3 2024 to MNOK 5 650 in Q4 2024. The 180-month Estimated Remaining Collections (ERC) at quarter-end was MNOK 10 166 compared to MNOK 11 106 at the end of the same quarter last year.

Earnings

Kredinor's EBITDA for the quarter was MNOK 51, compared to MNOK -26 in the same quarter last year. EBIT was MNOK 27, compared to MNOK -8 in Q4 2023. Cash EBITDA, or EBITDA excluding portfolio revaluations and interest income, plus cash collected, was MNOK 286, compared to MNOK 236 in the same quarter last year.

Market update and outlook

Market

The CMS business remains competitive. Kredinor has been able to keep the market share in Norway stable over the last years. The CMS business in Sweden, Finland and Denmark is still in a start-up phase and we expect growth within these markets in the years to come.

Since Q3 2023, Kredinor has only made moderate new PI investments. However, after the capital structure of Kredinor now has been clarified, we have been participating in several NPL portfolio sale processes. We see a moderate deal flow in the market. Kredinor also see an increasing market for securitization deals for NPL portfolios in Sweden and Finland.

Economic fundamentals in the Nordic countries remain reasonably strong. Inflation rates are declining, and interest rates have started to decline in Sweden and Euro countries. In Norway the first reduction in interest rates is expected to come in March 2025. With interest rates declining the cost of living will be reduced and the households' economic situation is expected to improve.

Focus going forward will be to return the company to profitability. Consequently, we will prioritize collection performance, growth in CMS, improving operations and realizing our capital light strategy.

Regulatory update

In Norway, changes in the Debt Settlement Act came into effect from January 1 2025 with the consequence that claims that has not been registered with the bailiff within the deadline lapses. The Norwegian government has also proposed changes in the Enforcement Act. Among others, the changes includes a proposal of a joint wage deduction, to be distributed pro rata among the debtor's creditors.

The Norwegian government has also presented changes in the debt collection act due to the NPL directive. The consultation does not include credit purchasers, but some changes with regards to the lisence for debt collection agencies.

In Finland, the government has sent the proposal on national implementation of the NPL directive to the Parliament, with implementation as soon as possible (earlier implied April-May 2025).

CRR 3 came into effect as of January 1 2025 and the Swedish FSA has requested clarifications by the EBA regarding the requirements to be approved as a specialised debt restructurer.

Note 1 Corporate information

Kredinor (the "Group") consists of Kredinor AS and its subsidiaries. Kredinor AS (the "Company") is a privately held company incorporated in Norway. The Company's registered office is at Sjølyst plass 3, 0278 OSLO, Norway

The largest entity in the group is Kredinor AS, registered in Norway.

The consolidated financial statements of the Group for the quarter ended 31 December 2024 were authorised for issue in accordance with a resolution of the Board of Directors on 3 February 2025.

Note 2 Basis for preparation

These financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting. The accounting policies applied correspond to those described in the Annual Report 2023.

The Company has applied all applicable accounting standards and interpretations issued by the International Accounting Standards Board (IASB) that are effective for the current reporting period. The Company has also adopted any new or amended standards and interpretations that are mandatory for the current reporting period but not yet effective.

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. Actual results may differ from these estimates. The significant accounting policies adopted by the Company are disclosed in the notes to the financial statements.

Presentation and functional currency

The consolidated financial statements are presented in NOK, which is also the functional currency in the parent company. For each entity, the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency.

Note 3 Material accounting policy

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Group's accounting policies.

This note provides an overview of the areas considered to be material, and of items which are likely to be materially adjusted due to changes in estimates and assumptions. Detailed information about each of these estimates and judgements is included in the relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Purchased debt portfolio (note 7)

The measurement of purchased loan portfolio is based on the Group's own projection of future cash flows from the acquired portfolios which are based among other factors on the macroeconomic environments, types of debtors and loans (e.g. secures/unsecured). Future projections are periodically reviewed and any changes in estimated cash flows are ultimately authorised by a central revaluation committee.

Goodwill (note 8)

Goodwill and other intangible assets derives from the acquisition of Modhi Group. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. This calculation requires management's judgment based on information available within the Group and the market, as well as on past experience.

An impairment test was conducted for the company's CGUs per 4th quarter 2024. This resulted in sufficient headroom for the CGU of CMS.

Note 4 Operating segments

Goodwill is recognised and tested for impairment conducted for the company's CGU per 4th quarter 2024. This resulted in sufficient headroom for the CGU of CMS.

The Group has goodwill which are subject to annual impairment testing. The testing is generally performed annually as at 31 December and when circumstances indicate that the carrying value may be impaired. The Group's impairment test for goodwill and intangible assets with indefinite lives is based on value-in-use calculations.

| | Year to | Year to date | | |
|------------------------------------|------------|--------------|--|--|
| NOK thousand | 31.12.2024 | 31.12.2023 | | |
| Balance at the beginning of period | 351 309 | 392 737 | | |

| Disposals | 4 001 | - | | |
| Impairments | 922 | 47 678 | | |
| Balance at the end of period | 347 210 | 351 309 | | |

For impairment testing, goodwill acquired through the business combinations in 2022 was allocated to the CMS CGU and PI CGU. Recognised goodwill in the group amounts to 347.210 as of 31.12.2024 and 351.309 as of 31.12.2023. Goodwill is mainly derived from the acquisition of Modhi Group which was completed in 2022. Goodwill is tested for impairment by groups of cash-generating units (CGU).

Key assumptions for value in use calculations

The recoverable amount is set to the estimated value in use. The value in use is the net present value of the estimated cash flow before tax, using a discount rate reflecting the timing of the cash flows and the expected risk.

The key assumptions used to determine the recoverable amount for the different cash generating units were disclosed in the annual consolidated financial statements for the year ended 31 December 2024 and 31. December 2023.

Discount rate

The discount rate is based on weighted average cost of capital (WACC). The discount rate is reflecting the current market rate of return in the industry where the cash generating unit is being compared. The cost of equity has been calculated with the basis in the capital asset pricing model (CAPM). An interest rate of 10.88% (9.2% in 2023) for 3PC has been used when discounting the cash flows. This is based on a risk free interest rate of 3.84%, plus a market risk premium of 5.0% and a company risk premium of 3.5%. Furthermore, is cost of debt and ROE considered in the calculation.

Growth rate

The growth rate in the period is based on management's expectation to the development in the market. Based on available information and knowledge about the market, management is expecting some increase in the growth for the next years. Management's expectation is based on the historical development in trends and public sector analysis. As a consequence of the uncertainty in the expectations, there may be a need for subsequent adjustments.

Sensitivity analysis for key assumptions

With regard to the assessment of value-in-use, there are no significant changes to the sensitivity information disclosed in the annual consolidated financial statements for the year ended 31 December 2024. CMS and other units will not be impaired unless a significant change takes place in the assumptions used. Management believes that no changes within a range of reasonably possible changes will lead to that the book value exceeds the recoverable amount.

The Group has pledged assets as security for its loans and borrowings, presented in the table below:

| | Year to | Year to date | | |
|--|------------|--------------|--|--|
| Assets pledged as security and guarantee liabilities | 31.12.2024 | 31.12.2023 | | |
| Secured balance sheet liabilities: | | | | |
| Interest-bearing liabilities to financial institutions | 2 564 548 | 3 433 058 | | |

Shares in subsidiaries are pledged as security for secured liabilities.

Covenants

There was no breach in Q4 2024 of financial covenants for the Group's interest bearing debt.

The Group has not given any guarantees to or on behalf of third parties in the current and previous period.

Adjusting events

There has been no significant adjusting events subsequent to the reporting date.

Non-adjusting events

There has been no non-adjusting events subsequent to the reporting date.

Note 14 Alternative performance measures

The interim financial information of the Group has been prepared in accordance with International Financial Reporting Standards (IFRS) and interpretations issued by the IFRS Interpretations Committee (IFRS IC) applicable to companies reporting under IFRS. The Group presents alternative performance measures (APMs) which do not have any standardized meaning prescribed by IFRS and therefore are unlikely to be comparable to the calculation of similar measures used by other companies.

The APMs are regularly reviewed by Management and their aim is to enhance stakeholders' understanding of the Group's performance and to enhance comparability between financial periods. The APMs are reported in addition to but are not substitutes for the financial statements prepared in accordance with IFRS.

The APMs provide a basis to evaluate operating profitability and performance trends, excluding the impact of items which in the opinion of Management, distort the evaluation of the performance of the operations. The APMs also provide measures commonly reported and widely used by investors as an indicator of the Group's operating performance and as a valuation metric of debt purchasing companies. Furthermore, APMs are also relevant when assessing the ability to incur and service debt. APMs are defined consistently over time and are based on the financial data presented in accordance with IFRS.

Alternative performance measures:

| | This p | eriod | Full year | Full year |
|--|---------|---------|-----------|-----------|
| NOK thousand | Q4 2024 | Q4 2023 | 31.12.24 | 31.12.23 |
