

StrongPoint ASA: Travel retailer Gebr. Heinemann buys StrongPoint software development and systems support for point-of-sale software LS One.

13.10.2020 12:11:39 CEST | StrongPoint | Inside information

(Vilnius, Lithuania, October 13, 2020): StrongPoint has signed an agreement with the German based travel retailer Gebr. Heinemann to provide software development and systems support services for its point-of-sale software, LS One (a product of StrongPoint's partner LS Retail).

StrongPoint will provide both services to over 700 of Gebr. Heinemann's point-of-sales in about 600 travel retail stores around the world.

"I am delighted that Gebr. Heinemann has chosen StrongPoint's software development and systems support services for their LS One point-of-sales solution. We pride ourselves on providing outstanding customer service and are proud to welcome Gebr. Heinemann as our latest customer," says Jacob Tveraabak, Chief Executive Officer of StrongPoint.

StrongPoint has been a long-standing partner of LS Retail partner and was made a Platinum LS One partner in 2020.
