

Norwegian grocery retailer Meny, part of NorgesGruppen, orders Vensafe units from StrongPoint worth NOK 10 million

23.3.2026 08:30:00 CET | StrongPoint | Additional regulated information required to be disclosed under the laws of a member state

(Oslo, 23 March 2026), StrongPoint, a grocery technology provider, announces an order from Norwegian grocery retailer Meny, part of NorgesGruppen, Norway's largest grocery retailer, for StrongPoint's proprietary Vensafe solution, designed for the in-store sale of age-restricted and high-theft products. The order is valued at approximately NOK 10 million and includes both new Vensafe units and upgrades to existing installations, excluding installation costs.

The upgrades involve replacing key components to bring current Vensafe units up to a higher standard and extend their lifecycle. Installation of both new and upgraded solutions is planned to be completed by the end of 2026. The order only covers part of the installed base of Vensafe units in Meny stores, as many units remain within their product lifecycle.

"This new contract is a testament to the value of StrongPoint's Vensafe, a solution that address real in-store operational challenges. It shows that StrongPoint continues to deliver tangible benefits to grocery retailers through improved efficiency and creating better customer experiences. Vensafe is a proven solution that our customers continue to rely on," said Magnus Rosen, SVP Nordics at StrongPoint.
