### Aqua Bio Technology ASA: Hydrafacial announces partnership with Restorsea and launches new Restorsea™ Lip Fix Kit

Reference is made to the commercial update on November 26, 2020, where Aqua Bio Technology ASA (ABT) informed that Restorsea recently had entered into two license agreements with two partners in addition to the license agreement with NASDAQ-listed Conversion Labs.

Today HydraFacial officially announced its partnership with Restorsea and launched its new Restorsea™ Lip Fix Kit which is based on ABT's hatching fluid ingredient (Aquabeautine XL). The kit includes the Restorsea™ Lip Serum, to be administered during the lip treatment, and the Lip Elixir gloss as a hydrator and natural exfoliator to be applied post-treatment

HydraFacial informs that HydraFacial® and Perk™ products are available in over 87 countries with over 15,000 delivery systems globally, performing millions of treatments each year. For further information on the partnership between HydraFacial and Restorsea, the new Restorsea™ Lip Fix Kit, and the HydraFacial brand, please see

and visit [LinkedIn](#), [Facebook](#), [Instagram](#), or at [HydraFacial.com](#).

The positive trend from Restorsea's commercialization of ABT's proprietary technology increases the likelihood that ABT will receive additional renewal payments and increased revenue from the sale of ingredients and royalties from Restorsea and its licensees.
