

Nordic Unmanned commences a new deployment with CAMCOPTER S-100

23.3.2021 08:55:15 CET | Nordic Unmanned | Additional regulated information required to be disclosed under the laws of a member state

Reference is made to the notifications to the market on the 5th and 28th of January 2021. This deployment marks the start of the first fully Nordic Unmanned staffed CAMCOPTER S-100 operation, operating the two Nordic Unmanned owned assets on site.

Nordic Unmanned has after a successful internal training period achieved Full Operational Capability (FOC) and commenced a European deployment of its first Schiebel CAMCOPTER S-100 RPAS system for an existing client and framework contract. The deployment has an estimated duration of 3 months. The system is equipped with sensors for maritime environmental monitoring and general maritime observations. The operations will be conducted BVLOS (Beyond Visual Line Of Sight).

The call-off value of the European deployment being referenced is 1 Million EUR.

Knut Roar Wiig, CEO at Nordic Unmanned said: "We are seeing a strong interest in deployments of our fleet of CAMCOPTER S-100 and are very satisfied to be starting the first fully Nordic Unmanned staffed operation. This is in alignment with our previously communicated investment and growth strategy. The delivery of our ordered second CAMCOPTER S-100 system is expected in April 2021, and will go straight into another European deployment."
