

TEKNA HOLDING AS: 2021 Annual Report and ESG Report

12.4.2022 07:00:00 CEST | Tekna Holding AS | Annual financial and audit reports

ARENDAL, NO / SHERBROOKE, QC. 12 April 2022 - Tekna (OSE: TEKNA), the world-leading provider of advanced materials to industry, today published its 2021 Annual Report and ESG Report.

Luc Dionne, CEO of Tekna, commented:

“2021 was a transformational year for Tekna Holding, marked by the listing of the company, major contracts awarded by industry-leading international companies such as LG Chem and Airbus, and the initiation of a multi-million-dollar capacity increase program to deliver on accelerating growth. We closed the year with a record-high order intake of CAD 20 million, which provides us with great momentum going into the new year.”

“Taken together, the events of 2021 marked the start of a new and exciting chapter for Tekna, propelling us forward in our vision of taking a leadership position in three multi-billion-dollar markets: Additive Manufacturing, Printed Electronics and Energy Storage. We will do so while stepping up our sustainability efforts. To this end, we have produced our first sustainability report. The report describes our approach and performance on our most material environmental, social and governance issues for the 2021 financial year. It is an important step in making our work on sustainability more transparent, in line with reporting standards, and more importantly, relevant to the world.”

The Annual Report and ESG Report are attached and are also available on the company's website www.tekna.com.

About Tekna Holding AS

Tekna is a world-leading provider of advanced materials to industry, headquartered in Sherbrooke, Canada.

Tekna produces high-purity metal powders for applications such as 3D printing in the aerospace, medical and automotive sectors, as well as optimized induction plasma systems for industrial research and production. With its unique, IP-protected plasma technology, the company is well positioned in the growing market for advanced nanomaterials within the electronics and batteries industries.

Building on 30 years of delivering excellence, Tekna is a global player recognized for its quality products and its commitment to its large base of multinational blue-chip customers. Tekna's powder products increase productivity and enable more efficient use of materials, thereby paving the way towards a more resilient supply chain and circular economy.
