ABOUT HUDDLESTOCK FINTECH AS

Huddlestock is a leading provider of investment- and wealth management SaaS solutions. We provide the technology, products and expertise to our B2B customers so that these can launch an innovative new investment service, or transform their existing one, in a matter of weeks. Our modular approach to cloud software helps firms around the world – from fintech startups to established banks, neobanks, wealth and asset managers – deploy innovative solutions with flexibility and speed. With a team made up of ex-industry practitioners and wealth technology experts, we also provide professional services and operations outsourcing that drive performance, innovation and growth for our customers. Huddlestock is listed on the Euronext Growth market.
