

BOARD REPORT

on the conversion of Seabird Exploration Plc (hereinafter referred to as the *Company*)

into a European Company (Societas Europaea (SE))

herein after also referred to as Seabird Exploration SE

PREAMBLE

This report (the **Report**) was drafted by the Company's board of directors with respect to the proposed conversion of the Company into a European Company (**SE**), in accordance with the provisions of Council Regulation (EC) No. 2157/2001 of 8 October 2011 on the Statute for a European company (SE) (the **Regulation**).

This Report has been prepared in accordance with article 37, paragraph 4 of the Regulation and the purpose of this Report is to explain the economic and legal aspects of the proposed conversion of the Company into an SE pursuant to Article 2 paragraph 4 of the Regulation, as well as to indicate the implications of the conversion for the shareholders and employees of the Company.

It is proposed that the Company is converted into an SE pursuant to the provisions of Title II Section 5, article 37 of the Regulation.

1. OVERVIEW OF THE PROPOSED CONVERSION OF THE COMPANY INTO AN SE

a. The Company

(i) Form and registered office of the Company

The Company is a public company limited by shares, registered and existing under the laws of the Republic of Cyprus with registration number HE259593. The Company's registered office is at Panteli Katelari 16, Diagoros House, Floor 7, 1097 Nicosia, Cyprus. This is also the location of its Head Office.

(ii) Share Capital

The Company's authorised share capital is EUR 15,470,000 divided into 91,000,000 ordinary shares of nominal value EUR 0.17 each.

The Company's issued share capital is EUR 13,680,966.07 divided into 80,476,271 ordinary shares of nominal value EUR 0.17 each, all being fully paid up. Out of these shares, six shares are owned by the Company.

The Company's shares are admitted to trading on the Norwegian stock exchange, i.e. Oslo Børs with ticker SBX.

b. Rationale for the proposed conversion of the Company into an SE

To better reflect the Seabird group's international and European reach in its legal form, it has been proposed by the Company's board of directors that the legal form of the Company is changed from a public limited liability company (**Plc**) to an SE. This corporate form has already been adopted by other major companies and offers the advantage of a foundation built on a uniform system recognised throughout the European Union, in which the Seabird group operates, which is consistent with the economic reality of the group. Additionally, the purpose of the conversion is a desire to achieve a greater flexibility in terms of the Company's location and the possibility of transferring the Company's location to other jurisdictions within the EU Community. The flexibility of an SE is a necessity in the Company's long term plan of relocating the Company to Norway. The Company has a strong connection to Norway, is listed on the Norwegian stock exchange (Oslo Børs) and has its tax residency in Norway.

A conversion to an SE company, and a subsequent relocation to Norway, will streamline operations and assist in simplifying the current structure of the Company and achieving cost efficiencies in the long-term.

A conversion of the Company to an SE is therefore considered to be the right strategic decision and will benefit both the Company and its shareholders.
